

OVER TWO DECADES. COMPLEXITY MASTERED. PRECISION & PARTNERSHIP.

Since 1997, our skilled team overcomes manufacturing issues and ensures satisfaction through high-quality, complex components with adequate lead times.

**PRECISION
ENGINEERED**
(with wide-range complexity)

**TRUSTED QUALITY
& RELIABILITY**

**CUSTOMER
SATISFACTION**
(ensured by adequate lead time)

COMPANY PROFILE

ABOUT COMPANY

The owner(Mr. Harpal Singh) started this company in the year 1997 with an ambition to seek his venture of running a successful manufacturing unit that would have the competency to make components with wide range of complexities.

With over two decades of experience and a team full of skilled individuals, the company always finds a way out from issues which occur while manufacturing difficult components.

We generally deal in a wide range of components involving manufacturing processes such as turning, milling, grinding, welding, injection moulding, blanking, punching, piercing bending, etc

WHY CHOOSE US?

- **TRUSTED EXPERTISE**

Strong experience across industries.

- **INNOVATIVE CONCEPTS**

Fresh ideas for modern business.

- **CLIENT-CENTRIC APPROACH**

Tailored solutions for each client.

INDUSTRIES WE SERVE

- Railway Industries
- Automotive Industries
- Medical Industries
- Electrical and Electronics Industries
- Aerospace Industries

LIST OF MACHINERY & EQUIPMENTS

S.NO.	MACHINE DESCRIPTION	CAPACITY
1	VMC (3 NOS)	Multiple
2	HYDRAULIC PRESS	75 TON
3	MECHANICAL POWER PRESS (3 NOS)	50 TON
4	MECHANICAL POWER PRESS (4 NOS)	30 TON
5	MECHANICAL POWER PRESS (3 NOS)	20 TON
6	MECHANICAL POWER PRESS 2	10 TON
7	MILLING M/C. (4 NOS)	1440 RPM
8	LATHE M/C. (4 NOS)	Varied sizes
9	SURFACE GRINDER (5 NOS) Manual	Varied sizes
10	CNC TURNING WITH TURRET	8 INCH CHUCK, 420MM TURNING LENGTH
11	MIG WELDING M/C (2 NOS)	250,400Amp
12	DRILL M/C. (4 NOS)	1440 RPM
13	TAPPING M/C (2 NOS)	upto M36 Tapping can be done
14	HAND PRESS (4 NOS)	300 KG,500kg,1000 KGS

HOW WE WORK

We follow a systematic and transparent process to deliver high-quality components that meet the exact requirements of our clients.

01

REQUIREMENT ANALYSIS

We understand our client's requirements in detail and analyze the feasibility.

02

DESIGN & ENGINEERING

Our engineering team creates precise drawings and 3D models using advanced software.

03

PROCESS PLANNING

We define the best manufacturing process, select machines, tools and set quality benchmarks.

04

MANUFACTURING

Using advanced machinery and skilled workforce, we manufacture components with high precision.

05

QUALITY INSPECTION

Every component undergoes rigorous inspection to ensure it meets international quality standards.

06

PACKAGING & DISPATCH

Products are carefully packed and dispatched on time to ensure safe delivery.

07

AFTER-SALES SUPPORT

We believe in long-term relationships and provide continuous support to our clients.

PARTNER **CAPABILITIES**

- Nickel Plating
- Zinc Plating
- Anodizing
- Hard Chrome Plating
- Heat Treatment
- Induction Hardening
- Auto-Blackening
- Wire Cut & EDM Facilities
- Cylindrical Grinding
- Lazer cutting
- CNC bending

QUALITY POLICY

We are committed to delivering high-quality sheet metal and machined components through contract manufacturing, ensuring complete customer satisfaction by consistently meeting and exceeding expectations.

Our Commitments:

- **Customer Satisfaction :**
Deliver products that meet customer specifications, drawings and regulatory requirements.,
Build long-term relationships through reliability and trust.
- **Process Control & Precision :**
Follow standardized and controlled manufacturing processes for consistent product quality.
- **Inspection & Continuous Monitoring:**
Conduct regular and rigorous inspections using precise measurement tools.
Ensure even the smallest deviations are identified and corrected promptly.
- **Continuous Improvement:**
Enhance processes, technology, and systems through ongoing evaluation and innovation.
Implement corrective and preventive actions to improve overall performance.

LIST OF MEASURING INSTRUMENTS & EQUIPMENT

- DIGITAL AIR GAUGE UNIT - 01 NOS
- (LEAST COUNT- 01 MICRON) - CK GAUGES
- HARDNESS TESTER-01 NOS- SAROJ.
- DIGITAL HEIGHT GAUGE (0-600 MM)- MITUTOYO- 03 NOS
- HEIGHT GAUGE (0-300 MM)- AEROSPACE- 02 NOS
- SLIP GAUGE SET(GRADE 0/ GRADE 1)- MITUTOYO
- DIGITAL VERNIER CALIPER - MITUTOYO-FOR ALL VARIOUS SIZES.
- VERNIER CALIPER- MITUTOYO - FOR ALL VARIOUS SIZES
- DIGITAL MICROMETER- MITUTOYO JAPAN- FOR ALL VARIOUS SIZES
- OUTSIDE MICROMETER - MITUTOYO- FOR ALL VARIOUS SIZES
- BORE GAUGE- MITUTOYO- FOR ALL VARIOUS SIZES
- DIGITAL DEPTH GAUGE- MITUTOYO- FOR ALL VARIOUS SIZES
- SURFACE PLATE- 03 NOS- 300 MM & 600 MM & 1 M- BAGSON
- TPG- FOR ALL STANDARD SIZES & SPECIALIZED SIZES IN
UNC,UNF,BSP,BSPT ETC.
- TRG- FOR ALL STANDARD SIZES & SPECIALIZED SIZES.
- MEASURING PINS- STANDARD & CUSTOMIZED SETS FOR
DIFFERENT COMPONENTS

WE ARE SERVING FOLLOWING CATEGORIES OF INDUSTRIES

Railway industries

Medical industries

Automotive industries

Aerospace industries

Electrical & electronics industries
